- I. Corporate Policy:** It is the policy of Schlage Lock Company, LLC to ensure compliance with all US Customs and other government agency regulations. This Import SOP is written in accordance with US Customs regulatory requirements. Allegion plc is the parent company of Schlage Lock Co., LLC and “Allegion” will be referenced periodically in this SOP.
- II. Purpose:** This purpose of this SOP is to ensure all Schlage Lock Company, LLC suppliers are aware of and adhere to US Customs and other government agency import requirements. All current revisions of Schlage Lock Company, LLC’s Import SOPs can be found on the Allegion Supplier Portal (www.allegion.com/suppliers).
- III. Scope:** This policy and procedure provides instructions for shipments to the US for Schlage Lock Company, LLC.
- This SOP does not cover SOMI shipments to the US or Mexico. (see “SOMI Import Standard Operating Procedure (SOP)” for instructions on SOMI shipments).
- This SOP does not cover INBOND shipments to Mexico. (see “INBOND Standard Operating Procedure (SOP) for Schlage de Mexico” for instructions on INBOND shipments).
- IV. Freight Forwarders:** Allegion has designated freight forwarders depending on the mode of transportation and type of shipment. Please refer to the below guide when shipping product to any Schlage Lock Company, LLC business unit.
- Note: This section only applies to designated freight forwarders and not US Customs brokers.¹**
- A. VESSEL SHIPMENTS:**
- For all vessel shipments our designated freight forwarder is **Kuehne + Nagel (KN)**. KN will be booking on behalf of Allegion on GSA-endorsed steamship lines.
 - Please refer to Exhibit 2 for contact information by country/city.
- B. AIR SHIPMENTS:**
- **Shipments under 65kgs:** Air shipments that weigh less than 65kgs should be forwarded through **UPS Small Package (UPS)**.
 - **Shipments greater than 65kgs:** Air shipments that weigh more than 65kgs and destined for **facilities in the US** should be forwarded through **UPS Supply Chain Solutions (UPS-SCS)**.
 - Please refer to Exhibit 2 for contact information by country/city

C. INBOND SHIPMENTS:

- Please refer to the separate procedure for INBOND SHIPMENTS. Please find all procedures on the Allegion Supplier Portal (<http://www.allegion.com/suppliers>).

D. SOMI SHIPMENTS:

- Please refer to the separate procedure for SOMI SHIPMENTS. Please find all procedures on our Allegion Supplier Portal (<http://www.allegion.com/suppliers>).

V. Importer Security Filing (ISF):

Under US Customs law, an Importer Security Filing (ISF) must be transmitted to US Customs at least 24 hours **prior to loading any vessel bound for the US.** Failure to file the ISF will result in \$5K customs penalty per violation.

For all vessel shipments, Suppliers must obtain an Importer Security Filing transaction number prior to physically turning cargo over to the freight forwarder.

Procedure for Supplier to obtain ISF Transaction Number:

1. Obtain bill of lading number from the freight forwarder
2. Complete Importer Security Filing (ISF) template, using template entitled: **“Allegion ISF TEMPLATE – US IMPORTS”**

Note: the Excel version of the ISF template will be distributed with this SOP, but can also be obtained from Trade Compliance.

2. Email completed ISF template and estimated time of vessel departure to the designated filing agent at least 72 hours in advance of sailing.

NOTE: The ISF Filing Agent for US Importations is: isf@iab-sd.com
The ISF contact is Steve Goding.

3. Obtain ISF transaction number from filing agent (must be documented on the ISF template). The ISF filing agent is required to return the ISF transaction number within 24 hours.
4. Deliver cargo to freight forwarder, and provide copy of final ISF template (reflecting 'ISF Transaction Number') with shipment documentation.

For payment instructions, the commercial invoices should also be sent to the appropriate entities as instructed on your PURCHASE ORDERS. NOTE: The EXACT SAME invoice must be used for BILLING AND CUSTOMS PURPOSES.

VII. Customs-Trade Partnership Against Terrorism (C-TPAT):

As part of US Customs' C-TPAT program (Customs-Trade Partnership Against Terrorism), Allegion requires our foreign suppliers to (A) conduct and document container inspections and (B) apply high security seals to containers.

All suppliers must comply with C-TPAT requirements A and B listed immediately below:

A. Conduct a 9-point Container Inspection prior to loading cargo, as well as:

- check the reliability of the locking mechanisms of the container doors,
- document the inspection (using the "[Container Inspection Checklist](#)" (attached to this document), and
- assign documentation accountability (someone from your company must be assigned the responsibility for container inspections).

NOTE:

Container integrity is critical to protect against the introduction into the US of unauthorized material and/or persons.

The required 9-point container inspection process covers:

1. Container cleanliness (not filthy; no weeds or seeds)

	Issue Date: June 30, 2005	Policy Number: Import/Export - 11
Policy Name: US Imports Standard Operating Procedure (SOP)	Last Revision Date: March 15, 2018	Page: Page 8 of 22

2. Pallet cleanliness (not filthy; no weeds or seeds)
3. Underside of Trailer
4. Left Wall
5. Right Wall
6. Front Wall
7. Floor
8. Ceiling
9. Inside and Outside Door / Hinges
(i.e. Ensure Locking mechanisms are secure)

Container Inspection Checklist

Complete the Container Inspection Checklist. Suppliers must complete sections I, II, and III for shipments bound for the US, and include the completed form sent on the inside door of the container.

B. Apply a high security Seal to all shipping containers bound for the U.S.

US law requires all containers bound for the U.S. to be secured with a high security SEAL which meets PAS/ISO 17712:2013 standards, as follows:

(1) seals must meet or exceed certain standards for strength and durability to prevent accidental breakage, early deterioration (due to weather conditions, chemical action, etc.) or undetectable tampering under normal usage. An 18MM MINIMUM WIDTH DIAMETER for bolt seals is required.

(2) seals must be clearly and legibly marked with a unique identification number.

(3) The seal is classified as an “H” – High Security Seal

Unused seals must be stored in a secure place and controlled.

Less than container loads must use a secured padlock or similar locking device. Only a limited number of individuals should have access to open this padlock. Once freight is consolidated for shipment to the US, the containers must be sealed with a high security seal.

US Customs Border Protection will assess civil penalties for violations of the container sealing requirement.

For additional information/specifications related to the seal requirement, or for any questions on C-TPAT, please contact the Trade Compliance group.

To receive the Container Inspection Checklist via email as a Word document, contact the Trade Compliance group.

U.S. Customs laws require each imported article of foreign origin to be marked with the English name of the country of origin. The country of origin marking must be permanent and conspicuous.

	Issue Date: June 30, 2005	Policy Number: Import/Export - 11
Policy Name: US Imports Standard Operating Procedure (SOP)	Last Revision Date: March 15, 2018	Page: Page 9 of 22

VIII. Country of Origin Marking:

The origin marking must be permanent so as to remain on the article (or its container) until it reaches the ultimate purchaser. The size of the marking statement should be readily visible by normal handling of the article.

Suppliers must ensure all Wood Packaging Materials (WPM) comply with US and international phytosanitary standards as follows:

IX. Wood Packaging Materials:

- All WPM must be properly marked to indicate it has been either heat treated or treated with methyl bromide,
- All WPM must contain the internationally recognized IPPC mark which certifies treatment.
- All WPM must also be free of timber pests
- All WPM must be very clean, and cannot have any signs of weeds or seeds on them (free from organic plant life).

Wood Packaging Material (WPM) is defined as wood or wood products (excluding paper products, such as corrugated paper cartons) used in supporting, protecting or carrying a commodity. Wood packaging materials include:

- pallets,
- crates,
- boxes,
- packing blocks,
- drums,
- cases,
- skids, and
- pieces of wood used to support or brace cargo.

XI. Responsibilities:

A. SCHLAGE PLANNER/BUYER (INITIATOR):

(1) Purchase Orders for New Product – NOTIFY TRADE COMPLIANCE

The Planner/Buyer is responsible for advising Trade Compliance when new articles will be purchased. The Planner/Buyer will provide the part number, part description, drawings, product literature and specifications as well as the supplier name to the Trade Compliance Analyst. This step will allow the Trade Compliance Analyst to review the new parts in order to assign a US HTS Classification and identify any other government agency requirements.

(2) Quantity Discrepancies

It is the Planner/Buyer responsibility to research the reasons for any quantity discrepancies and advise the Trade Compliance Manager regarding all discrepancies. The Planner/Buyer will complete the [Receiving Discrepancy Report - Exhibit 3](#). This information is then used to make corrections with US Customs. The US Customs entry quantities must match the quantity that was received. The values on the invoice must also match what the supplier will be paid for the shipment. Failure to report quantity and value discrepancies jeopardizes the company's compliance efforts and places the company at risk of receiving a penalty.

B. FOREIGN SUPPLIERS:

(1) Importer Security Filing

Suppliers cannot release any vessel cargo to the freight forwarders until they have obtained an ISF transaction number (see ISF instructions under section V of this SOP).

(2) Documentation

Ensure all documentation is provided to the freight forwarder and US Customs Broker, and complies with this Import SOP:

- Importer Security Filing for vessel shipments
- C-TPAT Container Inspection Checklist (CIC)
- Commercial invoice (with required data, including HTS classification)
- Packing List
- Seaway bill of lading and / or Automated Manifest System (AMS) bill, Truck Bill or Airway Bill (House bill)

(3) Bill of Lading/House bill of Lading Numbers

Supplier is to send, via email, the master bill of lading number and house bill of lading number to the Schlage Planner/Buyer. This information is used to track the shipment.

(4) Transportation Issues/Delays

The Logistics Manager along with the Buyer/Planner must be immediately notified in the event of delays, cancellations and or rescheduling of freight to include airline and port delays, mechanical problems, traffic congestion, embargoes, Customs audits and holds, or any other type of transportation delay or failure.

(5) Freight Bill Audit/Payment

	Issue Date: June 30, 2005	Policy Number: Import/Export - 11
Policy Name: US Imports Standard Operating Procedure (SOP)	Last Revision Date: March 15, 2018	Page: Page 12 of 22

Any questions surrounding the usage of freight plan numbers, invoice payment cycles or any other freight bill audit and payment issues should be brought to the immediate attention of the Logistics Manager.

C. FREIGHT FORWARDER:

(1) Documentation at Origin

The Freight Forwarder is responsible for ensuring that he/she has copies of documentation at origin. The Freight Forwarder then scans and uploads the documentation into the freight forwarding system, to support recordkeeping efforts.

The Freight Forwarder should NOT allow a shipment to depart origin without the required documentation.

The Freight Forwarder is responsible for ensuring that the arrival notice with the supplier documents are turned over to the designated Broker.

(2) Freight Bills (OCEAN VESSEL and AIR CARGO Shipments Only)

Bills of lading and supporting documents for any freight, drayage, terminal fees, etc. must be sent with the freight invoice to Cass, the freight payment service provider, for payment processing. It is extremely important that the freight plan number be included on the Bill of Lading. Allegion will not be responsible for the payment of freight invoices sent to Cass with missing or incorrect freight plan numbers. In addition, it is important that suppliers and freight forwarders note that only freight related charges are billed to Cass. Under no circumstances should Cass be billed for any direct material costs.

It is imperative that the “Bill To” block of the Bill of Lading be filled out to reflect Cass Information Systems, Allegion’s Third Party freight payment provider. In addition to the Cass reference a unique freight plan number must also accompany the Cass address. Each Allegion facility has a specific freight plan number as outlined in Section X and the following information is required to be placed in the Bill of Lading “Bill To” block:

Cass Information Systems

c/o Allegion

Freight Plan XXXXX

(replace XXXXX with applicable 5 digit number listed on Pg. 10)

P.O. Box 67

St. Louis, MO 63166

D. US CUSTOMS BROKER:

(1) Documentation

The US Customs Broker is responsible for reviewing all supplier import documentation and ensuring it meets the US Customs requirements for entry and compliance purposes. The US Customs Broker is also responsible for reviewing the entry file in accordance with Allegion’s “US Customs Broker Guidelines.” These Guidelines include Billing requirements.

(2) Recordkeeping

	Issue Date: June 30, 2005	Policy Number: Import/Export - 11
Policy Name: US Imports Standard Operating Procedure (SOP)	Last Revision Date: March 15, 2018	Page: Page 13 of 22

The US Customs Broker is responsible for mailing a CD, of all entry records for the month, to the Trade Compliance Manager.

Copies of the entry packets should be sent with the billing invoice to CASS, the freight payment service provider, for payment processing. The Freight Plans must be included.

(3) Missing Data

The US Customs Broker is responsible for coordinating further with the US Customs Team for any missing data, such as country of origin or classifications.

E. ALLEGION TRADE COMPLIANCE:

(1) US HTS Classification

The Trade Compliance Analyst is responsible for reviewing new parts and the product literature to determine the correct US HTS Classification. The Trade Compliance Analyst will maintain records of supporting documentation used for determination of the US HTS. The classification will be provided to the Buyer Planner within 2 days.

(2) Audits

The Trade Compliance Analyst is responsible for performing periodic entry audits to ensure suppliers, Planner Buyers and Brokers are following this Import SOP and following the compliance requirements of the US Customs and Border Protection agency.

(3) Quantity Discrepancies

The Trade Compliance Manager will review the Receiving Discrepancy Report that the Planner/Buyer sends. The Trade Compliance Manager will communicate the required entry changes with the US Customs Broker. Please refer to Exhibit 3.

F. ALLEGION LOGISTICS:

(1) The Logistics Manager is responsible for providing logistics support, including operational crisis management support when requested by the US plants, factories, and distribution centers. In addition, the Logistics Manager will ensure that the designated freight forwarder/carrier is consistent with the Allegion endorsed transportation base and that logistical movements are conducted in accordance with established contracted rates and service levels established by Allegion.

G. ALLEGION RECEIVING:

The US Receiving Supervisor is to notify the Planner/Buyer when quantity discrepancies are identified at time of receiving. It is **CRITICAL** that quantity discrepancies are reported in order to ensure correct declarations are made to US Customs. Failure to do so may lead to serious penalties against Allegion.
