I. Corporate Policy: It is the policy of Schlage Lock Company, LLC to ensure compliance with all US and MX Customs and other government agency regulations. This Import Standard Operating Procedure (SOP) is written in accordance with and MX Customs regulatory requirements. Allegion plc is the parent company of Schlage Lock Co., LLC and “Allegion” will be referenced periodically in this SOP.

II. Purpose: To explain to all parties, including suppliers and Schlage Lock Company, LLC personnel, the import compliance requirements for direct shipments to the Ensenada port. These requirements are necessary to ensure compliance with Mexico Customs Regulations.

III. Scope: This procedure applies to direct shipments to the Ensenada port meeting the following criteria:
- Ocean shipments
- Schlage de Mexico shipments
- Raw materials (i.e., parts and components, screws and other fasteners, plastic components, packaging, etc.).

This procedure does not cover SOMI shipments. For SOMI shipments please follow the SOMI Import Standard Operating Procedure (SOP) for direct shipments to the Ensenada port.

This procedure does not cover Air shipments. For Air shipments please follow the SOMI Import/Export Standard Operating Procedure SOMI US SOP.

This procedure does not apply to finished door locks as special legal requirements are applicable to finished door locks sent to Mexico. Finished Locks should not be included in a Direct Shipments to the Port of Ensenada program.

Also NO wood pallets shipped separately (pallets shipped in bulk, without any goods) may be shipped to Mexico due to strict health & agricultural regulations in Mexico. Failure to comply with this rule, will result in an inability to clear customs at the Mexico ports.

IV. Freight Forwarder: Allegion has designated freight forwarders. In all cases, the designated Freight Forwarder must be used for Allegion shipments.

For all vessel shipments our designated freight forwarder is Kuehne + Nagel (KN). KN will be booking on behalf of Allegion on GSA-endorsed steamship lines. Please refer to Exhibit 2 for contact information by country/city.

Please refer to the At-A-Glance Shipping Instructions for preferred Freight Forwarders. Use of Freight Forwarders NOT DESIGNATED in this SOP will result in delays and increased costs (which may be charged back to the Supplier.)
V. Supplier Compliance “Checklist”:

Prior to approving new suppliers for participation for direct shipments in to the Ensenada port program, the Schlage Commodity Manager must ensure the Supplier has met all of the mandatory requirements for participation in the program, as demonstrated by completion of the “SUPPLIER COMPLIANCE CHECKLIST”. The checklist is shown in Exhibit 3.

The Schlage Commodity Manager must coordinate with the supplier, the customs broker, logistics and the Allegion Trade Compliance group to complete the ‘Checklist’. Once completed and signed-off, a supplier can be introduced to the direct shipments to the Ensenada port program.

MANDATORY REQUIREMENT FOR DIRECT SHIPMENTS TO THE PORT OF ENSENADA:

VI. Documentation:

The “SUPPLIER COMPLIANCE CHECKLIST” must be completed before a supplier can be introduced into the Direct shipments to the port of Ensenada program. The Schlage Commodity Manager must ensure this ‘checklist’ is completed fully and timely. The Supplier Compliance Checklist is contained herein as Exhibit 3.

The Supplier Compliance Checklist will ensure all customs requirements are satisfied to avoid shipments arriving at Port of Ensenada with incorrect documentation. The Schlage Commodity Manager is responsible for ensuring the “Supplier Compliance Checklist” is completed and signed by all named parties before the first shipment.

REQUIREMENTS IN ADVANCE OF 1st DIRECT SHIPMENT TO THE PORT OF ENSENADA FOR EACH STEAM SHIPLINE

1. MX Trucking Company will acquire an insurance policy that covers the security deposit for the container retrieval at the Ensenada port.

2. MX Trucking Company will name KN as beneficiary of the insurance policy for container retrieval in the Ensenada port. Completed and signed copies of the insurance policy documents must be sent to KN’s Tijuana office (info.tijuana@kuehne-nagel.com) with a copy to Jaime Rolon (jaime.rolon@kuehne-nagel.com) and Elsa Escalante (Elsa.Escalante@kuehne-nagel.com) for validation. Also share this document with the Schlage Commodity Manager and Schlage Logistics Manager. Failure to obtain the insurance policy for container retrieval in the Ensenada port will result in a NO SHIP Policy.

3. Annual revision of this policy must be done by Schlage Logistics Manager.
Documentation Required:
The following documents are required at time of entry into Mexico:

1. Commercial Invoice – See requirements on Exhibit 5
2. Packing List – A separate Packing Slip is required for each Allegion business unit and Location.
   • Examples: Schlage Ensenada, Schlage El Sauzal, Schlage Tecate, Schlage Tijuana
3. Bill of Lading
   • NOTE: SOMI and NON-SOMI shipments CANNOT BE COMBINED on the same House Bill of Lading. SOMI Suppliers must ensure the Freight Forwarder creates a SEPARATE House Bill of Lading for the SOMI shipments.
4. C-TPAT Container Inspection Checklist – see Exhibit 1

EVERY document must have a statement that CLEARLY references the Allegion business unit. For example:

- Schlage ENS
- Schlage SAU
- Schlage TEC
- Schlage TIJ

a. Information Required on Documentation:

1. Consignee and Deliver To:
   Direct shipments to the Ensenada Port, the Consignee and the Deliver to party will be Schlage de Mexico, S.A. de C.V. plus the Business Unit. Please refer to the “Port Ensenada Imports At-A-Glance”.

2. Terms:
   The terms for all shipments must be agreed before the first shipment to the Schlage Plants. The Bill of Lading must be clearly marked “COLLECT”. Refer to section VIII. Bill To Party and Freight Plans.

3. Notify Party:
   The NOTIFY PARTY on all shipping documents for Direct shipments to Ensenada Port must reference the appropriate KN contact and MX Broker (Agencia Aduanal Jorge Diaz S.C.). Please refer to the “Port Ensenada Imports At-A-Glance”.

Send a copy of the express bill of lading to Schlage de Mexico Compliance team to track shipments. Send to tomas.hernandez@allegion.com.

VII. Customs-Trade Partnership Against Terrorism (C-TPAT) and Mexico AEO program:

As part of US Customs C-TPAT program (Customs-Trade Partnership Against Terrorism) and the AEO program (Authorized Economic Operator from SAFE program in Mexico) our foreign suppliers are required to:

(A) Conduct and document container inspections and

(B) Apply high security seals to containers.

Container integrity is critical to protect against the introduction into Mexico of unauthorized material and/or persons. All suppliers must comply with C-TPAT and AEO requirements A and B listed immediately below:

A. Conduct a 9-point Container Inspection prior to loading cargo, as well as:

- check the reliability of the locking mechanisms of the container doors,
- document the inspection (using the “Container Inspection Checklist” (attached to this document), and
- assign documentation accountability (someone from your company must be assigned the responsibility for container inspections).

NOTE: Container integrity is critical to protect against the introduction into the US of unauthorized material and/or persons.

The required 9-point container inspection process covers:
1. Container cleanliness (not filthy; no weeds or seeds)
2. Pallet cleanliness (not filthy; no weeds or seeds)
3. Underside of Trailer
4. Left Wall
5. Right Wall
6. Front Wall
7. Floor
8. Ceiling
9. Inside and Outside Door / Hinges
   (i.e. Ensure Locking mechanisms are secure)

Container Inspection Checklist

- Please complete the Container Inspection Checklist (attached to this SOP as Exhibit 1). Suppliers must complete sections I, II, and III for our shipments bound for Mexico and include the completed form with the paperwork sent with the container.

B. Apply a high security Seal to all shipping containers bound for Mexico
VIII. Wood Packing Materials:

Suppliers must ensure all Wood Packing Materials (WPM) comply with Mexico and international phytosanitary standards as follows:

- All WPM must be properly marked to indicate it has been either heat treated or treated with methyl bromide.
- All WPM must contain the internationally recognized IPPC mark which certifies treatment.
- All WPM must also be free of timber pests.

Wood Packaging Material (WPM) is defined as wood or wood products (excluding paper products, such as corrugated paper cartons) used in supporting, protecting or carrying a commodity. Wooden packaging materials include:

- pallets,
- crates,
- boxes,
- packing blocks,
- drums,
- cases,
- skids, and
- pieces of wood used to support or brace cargo.

It is mandatory that all containers bound Mexico be secured with a high security SEAL which meets the ISO/PAS 17712 standards.

Seal requirements: All seals must meet or exceed the current PAS ISO 17712 standards for high security seals. A new 18MM MINIMUM WIDTH DIAMETER for bolt seals is required.

1. Requires seals meet or exceed certain standards for strength and durability to prevent accidental breakage, early deterioration (due to weather conditions, chemical action, etc.) or undetectable tampering under normal usage.

2. Requires each seal be clearly and legibly marked with a unique identification number.

3. Unused seals must be stored in a secure place and controlled.

4. Less than container loads must use a secured padlock or similar locking device. Only a limited number of individuals should have access to open this padlock. Once freight is consolidated for shipment to Mexico, the containers must be sealed with a high security seal.

For additional information/specifications related to the seal requirement, or for any questions on C-TPAT, please contact the Trade Compliance group.
No wood pallets shipped separately (pallets shipped in bulk, without any goods) may be shipped to Mexico due to strict health & agricultural regulations in Mexico. Failure to comply with this rule, will result in an inability to clear customs at the Mexico ports.

Supplier must ensure the “Bill To” portion of the Bill of Lading reflects Cass Information Systems, our Third-Party Payment Provider, and the appropriate address below:

Cass Information Systems
c/o Allegion
Freight Plan XXXXX (replace XXXXX with applicable 5-digit number listed below)

</tr>
</tbody>
</table>
X. Packaging Marking Requirements: All packages must be clearly and visibly marked with their Country of Origin. The supplier can continue to use the current label with the part number, description and quantity, but the Blanket Purchase Order will not have a Release number.

XI. Responsibilities: 1. Schlage Commodity Manager

The Schlage Commodity Manager has primary responsibility for ensuring the “Supplier Compliance Checklist” is completed PRIOR to introducing a new supplier into the Direct shipments to the port of Ensenada program.

It is critical for the Schlage Commodity Manager to ensure the requirements of this procedure are met by the supplier to avoid the following:

- Delays in customs processing due to the invoice not showing Schlage de Mexico as the consignee or sold to party.
- Delays in customs processing due to the supplier combining SOMI and non-SOMI shipments on the same House Bill of Lading.
- High cost to Allegion for goods sent to storage for inability to clear customs.
- High cost to Allegion for paying pedimento entry.
- High cost to Allegion of lost productivity for all parties involved in resolving customs delays.

The Schlage Commodity Manager liaisons between the supplier and Kuehne + Nagel to ensure all set up requirements are satisfied.

2. Supplier

Ensures all requirements of this procedure are satisfied prior to the first shipment engaging in Direct shipments to the port of Ensenada program, including the following:

- Proves Invoice Compliance with Allegion Customs team.
- Ensures that SOMI and non-SOMI shipments are NOT combined on the same House Bill of Lading.
- Ensures all documentation and packaging requirements are met for EACH shipment, as set forth in this procedure.

3. Freight Forwarder (Kuehne + Nagel)

- Find the best rates and options to ship the goods.
- Serve as liaison between ocean freightliner and Schlage de Mexico.
- Responsible for liaison with logistics and compliance team.

4. Trucking Company (Fletes Esquer)
• Bond for container retrieval in the Ensenada port.
• Run a checklist of container condition before retrieval from the port.
• Safe return of the container back to the port.

5. Allegion Trade Compliance Team
   • Reviews following documents to ensure Supplier Compliance:
     Invoice Template, Origin Certification, Support HTS Classification requests.

6. Allegion Accounts Payable / Inventory Managers
   Allegion Accounts Payable must ensure all invoices and the related sub-inventory records are saved for 5 years to prove the payments involved goods in the program.

XII. Procedure: These are the requirements that must be met.

1. At Set-up
   A. Commodity Manager
      • Registration of New Parts in MX Customs System (Complete Southbound forms in coordination with Buyer)
      • Agreements w/Contract Number filed
      • Agreement with ocean freightliner for container retrieval in the Ensenada port on file
      • Follow supplier Check list

   B. Supplier
      • Fill out and send responsibility template to KN
      • Fill out commercial Invoice Compliance Proof
      • Declare Value of Goods to Schlage de Mexico
      • Provide supplier Tax ID to Schlage de Mexico

   C. Global Logistics
      • Ensure Cass Set-up for KN charges

2. At Time of Shipment
   A. Supplier
      • Ensure C-TPAT & AEO compliance (container inspection checklist & high security seal – Exhibit 1)
      • Comply with Wood Packing Materials
      • Fill out and attach Packing Slip
      • Fill out and attach Commercial Invoice (English)
      • Bill of Lading, Consignee shown as: Schlage de Mexico
      • Follow Freight Plans (2) in BOL
      • advise “Notify Party” of Shipment
B. Allegion Trade Compliance Team
   - Create invoice for Importation to Mexico (Spanish)
   - File import declaration (Pedimento)

C. Trucking Company
   - Agreement with ocean freightliner for container retrieval in the Ensenada port on file

3. Daily Operations
   A. Allegion Planner/Buyer
      - Ensure receipt in Allegion system
   B. Allegion Accounts Payable
      - Pay Supplier
      - Ensure Payables System reflects invoices

4. Ensenada Port Arrival
   A. General process flow
      - KN notifies arrival notice to Schlage de Mexico and MX Broker.
      - MX Broker receives documents (Bill of lading, invoice, packing list, etc) and confirms arrival with KN.
      - Allegion compliance team thru MX Broker solicits to the Ensenada Port “Previo” Inspection 24 hours prior to container release.
      - Allegion compliance team creates invoice for customs purposes and sends to the MX Broker for Import Declaration (Pedimento Document)
      - MX Broker request release ticket from the Port.
      - MX Trucking Company enters the Ensenada port and conduct an inspection of the container.
      - MX Broker presents to Customs authorities the Import Declaration (Pedimento Document). If inspection by authorities is needed, MX Broker will work with the Ensenada port to facilitate the inspection.
      - MX Trucking Company takes goods to Schlage de Mexico facility.
      - Schlage de Mexico receives the Materials into their Inventory System.

XIII. Transportation Carrier Contacts:
      Once replenishment orders are filled and ready for shipment, suppliers will communicate container booking information and requirements to the local office of Allegion’s designated freight forwarder, KN. KN contacts can be found in Exhibit 2. Once received, KN will book ocean container cargo with Allegion’s designated Ocean Container Carrier.

Supplier Compliance Checklist

Prior to approving new suppliers for participation in the Direct shipments to the Ensenada port program, the COMMODITY MANAGER must ensure all mandatory requirements are satisfied by obtaining sign-off on the “SUPPLIER COMPLIANCE CHECKLIST”. The Schlage Commodity Manager must fill out the following fields:

Supplier Name: _____________________________________________
Supplier Contact Name: ______________________________________
Supplier Contact E-mail: ______________________________________
Allegion Business Unit: _________________________________________
Schlage Commodity Manager: ________________________________
Schlage Commodity Manager E-mail: ____________________________

For each type of transaction below (as applicable), Schlage Commodity Managers and Suppliers must ensure all of the requirements listed below are implemented, understood and completed before any Direct shipments to the Ensenada port are initiated.
