The LEGGE 990MF Series of mortice locks have been designed specifically to meet the requirements of the Australasian market. With a range of lock functions, the 990MF Series has the right function to meet your specific needs.

Features and benefits
- Clever design: Multi-function case allows easy conversion from a vestibule lock function (inside handle free) to a combination lock function (both handles locked) by a simple external operation. Can be used on standard timber and metal doors, as well as narrow stile metal, timber & French doors (995MF).
- Faster, easier installation: Reversible stainless steel latch adjusts for inwards/outwards opening and left/right hand with case disassembly. Compatible with most electronic strikes.
- Durability & security: The 990MF Series conforms to both level D8ww (Durability) and level SL8 (Physical Security) of the Australasian Lock Standard (#AS4145.2-2008).
